One of our plantings at Kew-Gardens, L. I.

# WESTBURY ROSE G., INC. NURSERYMEN AND LANDSCAPE CONTRACTORS

TEL WESTBURY 49

WESTBURY, L.I.

LEAVE THE WORLD MORE BEAUTIFUL THAN YOU FOUND IT.

### INTRODUCTION

Herewith our catalogue for 1922. Kindly give it a few mements of your time. Whether you have a small place or large grounds to develop, we are ready to help solve your problems.

The stock we use to beautify your home-grounds is well grown. We GUARANTEE OUR PLANTINGS FOR ONE YEAR.

Our representatives are always ready to give you intelligent advise, which may save you time and disappointment.

The fact growing of our business must have its origin in the satisfactory results obtained in our land-scape work. When you contemp'ate improving your grounds communicate with us and we will make you a sketch of the planting.

There is as much quality in nursery - strck as there is in other goods; so why not get the best.

Yours for better Gardens, Westbury Rose Co., Inc.

### FOUNDATION - PLANTING

This is for most suburban homes the main planting and it deserves the greatest care and study. A well arranged foundation - planting will make your home look cozy and it will give you pleasure for a number of years.

You know the saying: "A Thing of Beauty is a Joy for ever".

We use in our plantings a very good assortment of evergreens and broad-leaf evergreens. Their combination makes a planting very attractive. Too many plantings suffer of not enough variation in outline and habit of the individual plants.

Shrubs are also splendid material, but they should be planted in groups and not scattered among evergreens. Some varieties need plenty of room as they grow quite large in a few years.

They are fine for borders, where they can develop to their full beauty.

# Evergreens

# ARBORVITAE

AMERICAN. This variety forms a fine pyramid. It is
hardy but does not like exposure on windy corners.
3 ft. \$ 3.00
4 4.00
Specimen \$ 20.00 and up.
CHINESE. A light green evergreen which turns to a
bronze color in fall.
3 ft. \$ 4.00
4 5.00
Specimen \$ 20.00 and up.
SIBIRIAN. Rather slow growing making a bushy or
compact evergreen.
3½ ft. \$ 7.00
· ·
THUYOPSIS STANDISHII. A Japanese form of Ar-
borvitae with a distinct habit.
6 ft. \$ 8.00
GLOBE. A slow growing one, forming a well shaped
ball. Very useful in foundation planting.
1 ft. \$ 1.50
2 5.00
